### **COURSE DESCRIPTION:**

This course takes a comprehensive view of human relationships with the natural environment. The severity of environmental degradation in modern times has forced many nations to reconsider the manner in which societies live and produce. Using a multidimensional and multidisciplinary approach, Environment and Society explores one of the most important global issues of our time.

### **EDUCATIONAL THEMES:**

The term ecology, mostly used to explain the relationships of organisms with their natural environment, is expanded to include the relationship of humans with their environment. Concepts related to: Sustainability, Urban Ecology, Pollution, Climate Change, Energy and Environment, Carbon Cycles, Environmental Policy, Green Building, etc. will be explored in this course.

### **OJECTIVES:**

- 1) To conduct a brief survey of human/nature environmental transactions from pre-history to our present condition.
- 2) To critically study theories about nature and social organizations and how they have affected our relationships with the natural environment.
- 3) To critically study pre-scientific and scientific views on ecology, biodiversity and human productivity.
- 4) To critically asses the recent history of massive human expansion and the resulting environmental degradation.
- 5) To critically study the most current issues on sustainability, climate change, clean energy, green building technologies and environmental regulation.

**BASIS OF EVALUATION:**

Grading will be based on the University System. Class attendance is mandatory. There will be 1.5 grade points deduction of the final grade, for every class missed after the second absence. Four absences automatically bring failure of this course. Two tardiness equal one miss. If a student inexcusably quits early a class period, it will be counted as a missed class. Absences should be rare and fully justified. If a student misses a class, he or she will be responsible for the assignments and notes missed and for any discussions or information provided in class.

Percentages of the final grade are as follows:

20% Periodic assignments, class discussions and participation

20% Mid-term exam

20% First report and notebook submission

20% Second report and notebook submission

20% Final exam

**Numerical grade distribution:**

94-100= A	90-93= A-	87-89= B+	84-86= B	80-83= B-	77-79= C+	74-76= D
60-73= D	0-59= F					

Points per credit hour (university calculation):

A=4.00	A-=3.67	B+=3.33	B=3.00	B-=2.67	C+=2.33	c=2.00
D=1.00	F=0.00					

**NOTEBOOK:**

Notes can be taken from class and from related research materials.

Notes must be taken in a required notebook in order to be graded or to be used during examinations. Notebook will also be used as a portfolio to assess student outcome.

**COMPUTER USE: Students are not allowed to use computers or phones during class.**

**FIU Academic Misconduct Statement**

Florida International University is a community dedicated to generating and imparting knowledge through excellence in teaching and research, the rigorous and respectful exchange of ideas, and community service. All students should respect the right of others to have an equitable opportunity to learn and honestly to demonstrate the quality of their learning. Therefore, all students are expected to adhere to a standard of academic conduct that demonstrates respect for themselves, their fellow students, and the educational mission of the University. All students are deemed by the University to understand that if they are found responsible for academic misconduct, they will be subject to the Academic Misconduct procedures and sanctions, as outlined in the Honors College Student Handbook.

Academic misconduct includes:

- Cheating – The unauthorized use of books, notes, aids, electronic sources, or assistance from another person with respect to examinations, course assignments, field service reports, class recitations or other work; or the unauthorized possession of examination papers or course materials, whether originally authorized or not. Cheating violates both University and College codes.
- Plagiarism – The use and appropriation of another’s work without any indication of the source, and the representation of such work as the student’s own. Any student who fails to give credit for ideas, expressions or materials taken from another source, including Internet sources, commits plagiarism. Plagiarism violates both University and College codes.
- Unacceptable behavior – Students who show repeated or egregious disrespect for classmates or instructors, are disruptive, or consistently violate course rules are subject to the sanctions of the Honors College.

Registration in this course implies an acceptance of and compliance with the Honors College policies for students and the FIU Code of Academic Integrity. Please refer to the following documents for additional information:

FIU Code of Academic Integrity – <http://www.fiu.edu/~dwyere/academicintegrity.html>

### **Student Portfolios**

The Honors College will be using a portfolio method to assess students’ learning outcomes. The portfolio allows for maximum flexibility in gauging student learning. Students decide (with instructor consultation) what “artifacts” or assignments to include for consideration in their portfolios to demonstrate successful achievement of each of five key student learning outcomes over the 4-year Honors experience. Portfolios provide a rich context for students to show what they have learned and to explain their learning process. The purpose of the portfolio is to assess how successfully our curriculum fulfills its goals, and is not graded. Because the Honors curriculum is meant to be thought-provoking and reflective, student self- assessment through portfolios will facilitate learning and provide in-depth

assessment. Each course will include at least one assignment that could potentially fit portfolio requirements. For more information on the student learning outcomes and constructing a portfolio for your senior year, see [www.honors.fiu.edu/portfolios](http://www.honors.fiu.edu/portfolios).

### **Honors Citizenship Requirements**

All members of the Honors College are expected to be active citizens of the College, the University, and the community at large. To be a committed Honors College student is to take advantage of enhanced learning opportunities and to assume a leadership role in the world. Attendance will be taken at events where appropriate and practical. All College members are expected to participate in the community-building activities listed below:

1. Attend one Honors Excellence Lecture per academic year and one Honors Colloquium per semester (fall and spring).
2. Attend at least three Honors Hour sessions per semester or enrichment events specified by the Honors College as satisfying this requirement.
3. Perform at least twenty hours of community service per academic year (summer excluded) either through the Honors College service partnerships (Sweetwater, Overtown Youth Center, etc.) or through other community service projects and/or events. If you want to apply this service to your graduation portfolio, be sure to document your hours. Please contact an Honors College Academic Advisor if you have any questions.
4. For more information on Honors citizenship requirements, see the Honors College Student Handbook.

### **Honors Misconduct Statement**

#### **Procedures**

An Honors faculty member may bring charges of Academic Misconduct against an Honors student. If the faculty member suspects plagiarism or other forms of academic misconduct, within one week of the discovery of the suspected act the faculty member will hold an informal meeting with the student in order to inform him/her of the allegation(s), provide any evidence available, and allow the student to respond. The faculty member will decide whether to pursue informal resolution, file formal resolution charges, or take no further action, and will follow the procedures outlined in the Academic Misconduct Procedures, available at <http://www.fiu.edu/~oabp/misconductweb/1acmisconductproc.htm>.

The student will have the right to appeal the outcome of the meeting with the instructor within one week of the faculty member's decision, when the decision is to pursue informal resolution or file formal resolution charges. The appeal will take the form of a letter to the Dean outlining the circumstances of the case and the reason for the objection to the professor's recommendation. The Dean or his designee will examine the case and make a final determination about the pursuit of Informal Resolution or the filing of formal resolution charges.

#### **Penalties**

An Honors College student found responsible for plagiarism or other academic misconduct by informal resolution or formal resolution will receive an F in the relevant Honors course, and will be dismissed from the Honors College by the Dean, effective from the end of the semester in which the infraction occurs. Dismissal will be in writing and will entail the loss of all privileges and benefits of being in The

Honors College, and the student will not be readmitted to The Honors College. The decision of the Dean will be final. This decision relates solely to the student's status in The Honors College and does not affect the student's right to appeal the original faculty decision. The penalty of dismissal from The Honors College may apply to academic misconduct in any course within Florida International University and not only to courses offered by The Honors College. In the case of courses outside The Honors College, the Dean of The Honors College will rely on the Office of the Provost for notification about the infraction(s). More stringent penalties, such as dismissal from the university, may be pursued through the university's established academic misconduct process.

In The Honors College, the term "honor" refers both to academic accomplishment and character. Students in Honors should therefore adhere to and be held to the highest standards of personal academic accountability. Academic dishonesty in any form, including plagiarism, is antithetical to the very definition of being an Honors student at FIU. Consequently, an Honors College student found responsible for academic misconduct will be dismissed from the College. Academic misconduct is a violation of the University Code of Standards, the Code of Academic Integrity, the ethical relationship between the student and the academic community, and especially between the student and the instructor. It is the responsibility and prerogative of the instructor to make an initial determination about the extent and severity of an instance of academic misconduct; the instructor may opt to make a referral for further adjudication in appropriate cases.

### **Religious Observances**

Every effort will be made, where feasible and practical, to accommodate students whose religious practices coincide with class requirements or scheduling. Please make sure to notify your instructor at the beginning of the semester of which dates you will be absent or any anticipated problems with completing course work.

### **Physical, Mental and Sensory Challenges**

Every effort will be made, where feasible and practical, to accommodate students who are so challenged. Should you require accommodations, contact the Disability Resource Center, if you have not done so already.

### **GLOBAL LEARNING GL Learning Outcomes**

- Global Awareness: Students will be able to demonstrate knowledge of the interrelatedness of local, global, international, and intercultural issues, trends, and systems.
  - o Course Learning Outcome: Students will demonstrate knowledge of the interrelated dynamics (social-cultural, political, economic, etc.) that shape the actions of multiple figures in diverse cultural contexts.
- Global Perspectives: Students will be able to develop a multi-perspective analysis of local, global, international, and intercultural problems.
  - o Course Learning Outcome: Students will be able to analyze the multiple causal forces that shape the perspectives of historical individuals/persons — economic, political, sociological, technological, cultural, etc.

· Global Engagement: Students will be able to demonstrate a willingness to engage in local, global, international, and intercultural problem solving.

o Course Learning Outcome: Students will demonstrate a willingness to engage in negotiation regarding actions of global import within the context of the class simulation.
